Current Content and Issues

The Geospatial Poverty Portal

- Map-based interface
- Provides national and subnational data
- Provides information on income-based poverty
- Some information on multidimensional poverty

Can we provide more information?

- Additional point-in-time data?
- Time series data

Additional data sources added

The World Bank's [multidimensional poverty measure](#)

- Five measures of poverty:
 - Monetary; Education; Electricity; Sanitation; Drinking Water => Overall Measure
- Information drawn from most-recent survey in the country
- Sometimes missing in the current portal even when present in WB data

[Food insecurity data](#)

- Time series data from 2015 – 2022 where available

[Sustainable Development Goals](#) indicator data

- Data downloaded and formatted
- Dashboard is work in progress when due

Dashboard Demo

Information on countries where available

Time series where available

Additional issues:

- Bringing in SDG data
- Missing data issues from WB
